29er Sailing
Web Site Architecture/Design/Development/Site Management
Feb. '00

OBJECTIVES >

The 29er Class Association objective was to provide class and racing information to it's sailors .

SOLUTION >

Our solution was to create a one stop information site where sailors from around the world could find information about the 29er class. The site provides information on where to buy a boat, how to sail your boat, manuals, rules and regattas.
